

**GRZ Technologies Ltd.** is an energy technology start-up. Our vision is a world fueled by renewable energy – day and night, summer and winter. Backed by several industrial partners and thus financially secure, we develop hydrogen storage and compression systems. While our products are carefully engineered and optimized, we are missing **YOU** to help us bring our solutions skillfully to market:

## Interactive Media Design Intern (80%)

As **Interactive Media Design Intern** on GRZ Technologies' Marketing Team, you will report directly to our Head of Marketing, supporting the creation of visual content that aligns with GRZ's brand vision.

Your primary activities:

- Assist in creating visual assets for digital and print media, including social media graphics, website visuals, product brochures, event materials, and branded presentation templates.
- Help develop visual components of the company's brand materials, ensuring consistency and cohesion with GRZ's brand identity.
- Translate technical information into visually engaging and easy-to-understand marketing materials.
- Assist with the layout, formatting, and visual improvement of product sheets, case studies, sales collateral, and presentations.
- Help develop and maintain consistent brand materials across typography, layout, imagery, and visual style.
- Support updates to digital channels, including website visuals, social media assets, and other marketing communication formats.

Your profile:

- Currently enrolled in or recent graduate in interactive media design, graphic design, visual communication, media design, or related field.
- Strong eye for layout, typography, visual hierarchy, composition, and brand consistency.
- Proficiency in Adobe Creative Suite (Illustrator, Photoshop, InDesign) and Canva.
- Familiarity with 3D rendering and CAD files would be a significant advantage.
- Experience or coursework in digital, print, web, and/or video content creation.
- Adaptable and organized, with the ability to work independently, meet deadlines, and manage multiple design projects simultaneously.
- Fluency in English; knowledge of French and/or German would be an asset.
